

On the afternoon of March 6, 2025, the second X Factor singing competition was held in the auditorium. After making it past intense competition in the initial two rounds, six contestants went head to head in the final event, ready to deliver their best performance yet.

The event kicked off with a medley of songs brought by Emily from 11-1, Mr. Qu, Mr. Matthew, Mr. Zhu, Mr. Johnson, and Mr. Xu. The blend of classical and popular hits worked perfectly, opening the event with a bang and warming the crowd for the six contestants to come.

The first to step on stage was Lucy from Class 12-1, who made a stunning entrance with Ed Sheeran's "Supermarket Flowers". Her soft and heartfelt voice complemented the song's message about love, loss, and cherishing moments with one's family, invoking the audience's fond memories of intimate warmth and comfort.

Immediately afterwards, just as the audience was lost deep in recollection, they were jerked back to reality as Justin and Brady from Class 12-2 and 12-4 performed the song "Head Straight". Their seamless harmonies and lively stage presence wonderfully communicated the ups and downs of life. With fluid vocals and a catchy melody, they showed the audience how love was both so difficult yet beautiful all at once.

Next came Claire from 11-5, who stunned the crowd with "Stone Cold". Her performance powerfully captured the merciless determination of the song through resonant and striking vocals. Her voice was like an ice-cold stone, yet with a hint of defiant flame shining through the frost, enchanting the audience and leaving them in awe.

Moving on to a more animated performance, Max from Class 10-6, brought the Coldplay classic "Viva La Vida" in a spirited splash. His charisma and confidence on stage showed as he captured the song's solemn essence, the reversal of magnificence to desolation.

To conclude the event, Claudia from class 12-2 gave her rendition of "She Used to be Mine". Her delicate yet expressive voice intricately illustrated the inner world of the protagonist. Her performance was filled with emotional depth, allowing the audience to peer into the journey of rediscovering self-worth in the face of suffering and establishing hope for a bright future.

X Factor is not only a singing competition, but also a stage that brings music back to its essence, allowing students to follow their hearts' hobbies. Each participant will showcase their most genuine singing here, allowing music to be directly compared through sounds, revealing the unique charm of music.

This competition is a display of the contestants' musical talents and an important push for their personal growth and self-actualization. We look forward to more students shining their own light on the Star School stage in the future, adding more colors to the campus life.
